Return Participation 12-31-2014

This portfolio report includes securities for which return data is not available for the entire history represented. When return is not available for a security, the remaining securities returns are reweighted to maintain consistent proportions for the securities that do have returns. The reweighting impacts trailing return data, as well as statistics that are

calculated using return, including standard deviation, mean, Sharpe ratio, alpha, beta and R-squared. The following securities do not have 120 months of return data reflected in the report.

Portfolio Snapshot Report

Disclosure Statement

General

Investment portfolios illustrated in this report have the user input the portfolio holdings, initial investment amount, start and end dates and amount for all subsequent investments into and withdrawals from each holding, as well as tax rates, loads, and other factors that would have affected portfolio performance.

The portfolios are theoretical and are for illustrative purposes only, and are not reflective of an investor's actual experience. The performance data given represents past performance and should not be considered indicative of future results. Average Fund MER is a weighted average calculation based on reported management expense ratios of the underlying retail, F-class, segregated, and exchange traded fund investments in the portfolio. All other non-applicable security types, as well as, funds for which management expense ratio data is not available, are excluded from the weighted calculation. Estimated Annual Fund Expense is the sum of all available calculated expenses paid for individual fund investments in the portfolio. Principal value and investment return of stocks and mutual funds will fluctuate, and an investor's shares/units when redeemed will be worth more or less than the original investment. Stocks, mutual funds, and variable annuity/life products are not CDIC-insured, may lose value, and are not guaranteed by a bank or other financial institution. Portfolio statistics change over time.

When used as supplemental sales literature, the Portfolio Snapshot report must be preceded or accompanied by the fund/policy's current prospectus or equivalent. In all cases, this disclosure statement should accompany the Portfolio Snapshot report.
